

# Sioux City Fire - Rescue

Driver's Training held  
September 21-23 at TSI

**“All members of the SCFR participate in a yearly activity to improve the skills they have using the fire apparatus they are assigned to. In the past the class was held at the airport. With the help and cooperation of WITCC and TSI (The Security Institute) the driver training was moved to the WITCC campus. The training consists of class room training and drivers skills training. In the near future, SCFR will be utilizing the new drivers “Simulator” located in the TSI Building.”**

**Lt. Scott Kovarna**
